PACK* Sneak up to the throne and take no prisoners! The Drakenel Palace is your goal! Drakenel Palace: The package is a treasure box that costs £9 and includes a special costume and a cape! The costume is the following piece of work: They're going to have to hack and slash their way through enemy's to get there... ...but you know how to go on a killing spree in style! The cape is: He actually wears a cloak which looks cooler than a cape... Despite his inability to use melee weapons as a cleric, he has at least two of these... And of course, the fiery gold (but I guess his gold is still yellow) fireballs will just be added... With the horrible costume in hand, you meet this jerk: His dress is not a cape... It's a pillow with a cape on it... And when he yells, don't expect the time saved, you'll instead get smacked in the face : As you begin your assault on the palace, your upgrade! Now you can swap weapons and instead of getting the normal fireballs, he can get the following ones: You can use a staff instead of the 2 other swords in your inventory... And he gets the poisoned dagger: But don't expect him to wimp out! He'll have to upgrade his fireballs to firebombs, which deal massive damage... He'll turn on the fox and take the cannon After all, the first thing he's going to want to do is feed the cannon with the poison he got from the melted canisters... And he'll have to upgrade his cannon to a chaingun... He'll then use a lot of the more mystical weapons, like this one... And the big guy comes in: He'll check out the new improvements in style... ...and he'll have to throw himself on the masses of enemies occupying the steps to the palace! Snake on down the steps to fight those beards! Xombies and bats show up... ...with a carp skin... And then this: And finally, when you reach the stairway to the throne room, you'll finally get this: To help your goal.

BATTLEGROUND SHIPPING We've updated our shipping website. It may take a few minutes to load, but it should be up and running by the time you read this. So we added an FAQ section, as well as a new FAQ button on the title page. And on the checkout page, the "ship to" value gets calculated before we place your order. That's the only change you should notice. The same order will go out to you via email as well. And of course, all of the accounts and information you need to complete your order are still there. And as before, even if you know the exact location where you want the game shipped, if you would like the game shipped to the post office, just select that option from the drop down menu.

The Little Things BattleGrounds - We never knew we had so many BattleGrounds to travel to in these Forums. Or perhaps we knew, but just didn't pay enough attention to them. For whatever reason, there are lots of BattleGrounds that we just haven't had the chance to play yet. With over 6 million views across our BattleGrounds and more than 5,000+ votes per month, the little feedback we've been getting just isn't enough. So we're starting to post more about them. Here are two BattleGrounds that
