Paypal payment - how can I find IPN message which say that transaction was successful or error? I am working on payment gateway integration and I send

---

transactions to the paypal payment gateway using the sandbox account. I'm sending the transaction and I'm making API calls and I get a TransactionCompleted response or TransactionFailed. After I get this response I want to receive the IPN message saying that Transaction Completed or Transaction Failed. After I make the IPN call, I just wait a while and I get TransactionCompleted/TransactionFailed messages. The problem is that the IPN message always arrives after I get the TransactionCompleted/TransactionFailed response. I want to receive

---

these messages while the transaction is going on. A: As per documentation on IPN (Instant Payment
