In the year 2008, the fictional city Karmabek was violently obliterated by the military forces. Karmabek disappeared - just like its residents. No one survived. But, in reality, Karmabek didn't disappear. Resurrecting the character of this empty, forsaken city - we've started a cinematic storytelling project and collected together all the episodes of the game in its post-apocalyptic and psychological sequel, Crudelis. Crudelis is a story of memories, nostalgia, despair, grief and anger. A story of a forgotten city, a fragile past and a hope for the future. A story of a person you can't really call a person - but just a little less dead than the rest of the population. Crudelis is a cinematic single player action

She is a political appointee who was hired on the recommendation of the White House to oversee a program protecting women from violence. She now has a sex life? This was the news out of the White House Thursday night regarding H.E.R.A. chief for the last two years, Vanessa Taylor. Her firing comes as a shock because she is a career criminal prosecutor who worked for the FBI for 25 years in New York. She even served as assistant director of the FBI's New York division. She would have never been included on the White House's recommendation, had the White House not been concerned that she would become politicized and cause problems in the effort to pass the Violence Against Women Act. [...] It is unclear why she was reported to have an affair with Rosenstein, and Taylor has not been publicly accused

of any wrongdoing. An official who had direct knowledge of the affair said that the relationship was consensual, but declined to offer further details. CNN was the first to report that there was an affair, including this paragraph on a story about the Trump administration regarding Taylor: According to a source familiar with the matter, there was an affair in 2016 between Van, her husband and Rod. They were all very,
