I have an array of 8x8 tiles. I made a copy of one of these tile in "copyOfThisTile". How can I make a copy of the tile elements of the array? How do I make a copy of a tile out of the array of tiles? A: Have a look at Array.copyOf(): public static Object copyOf(Object original, int from, int to) Overview This road has an important presence in the history of Calpe. It was part of the route through the Andalusian mountains that the great pilgrims traveled, pilgrims who made numerous canonical visits to the city and restored the cathedral of Calpe, the city which they called 'the modern city of Palma', and which was devastated in 1755 and then rebuilt to the design of Pedro de Aranda. The great 'Route of the Holy Face' pilgrims between Malaga, Gerona and Palma de Majorca was for centuries the vital artery connecting the whole of the Peninsula to the rest of Christendom, and it would be possible to visit all the places along the route here on our Tour and in our excursions.
